PROFESSIONAL SUMMARY

Highly skilled Automation Test Engineer with over 2.5+ years of experience in software testing and automation frameworks. Proficient in a wide range of automation tools and languages, including Selenium, Playwright, Appium, Java, C-Sharp, JavaScript, TypeScript, CI/CD, GitAction, Jenkins, Azure DevOps, Docker, and more. Demonstrated expertise in building automation frameworks from scratch, working in agile environments, and providing freelance support. Strong problem-solving abilities, quick decision-making skills, and excellent team collaboration and communication capabilities. Experienced in client-facing roles, ensuring high client satisfaction and effective feedback management.

TECHNICAL SKILLS

- **Automation Tools:** : Selenium, Playwright, Appium, RestAssured, RestSharp, K6, Swagger
- **Programming Languages**: Java, C-Sharp, JavaScript, TypeScript
- **Testing Frameworks**: BDD, SpecFlow, Cucumber, TestNG, JUnit, NUnit
- **CI/CD Tools**: Jenkins, GitAction, Azure DevOps
- **Containerization**: Docker
- **Version Control**: Git
- **Bug Tracking and Test Management**: JIRA, TestRail, Azure DevOps
- **Other Skills**: Debugging, Suite Support, Quick Action Taking, Test Case Writing

EXPERIENCE

Testrig Technologies Pvt. Ltd.   Aug 2022 – Present

Risk Compliance Domain (1.9+ years)
- **Built an automation framework from scratch** using C-sharp, SpecFlow, NUnit, Selenium, and RestSharp.
- Created a **hybrid framework** for API and UI testing, consolidating common methods for project reuse.
- Supported suite execution and pipeline integration using **Docker** and **GitAction**.
- Managed test case execution across all available environments (dev, test, pre-prod, prod).
- Validated email content using **GraphQL APIs** and tested content within Word, PDF, and Excel files.
- Engaged in client-facing activities, managing client feedback, and ensuring client satisfaction.
- Consistently received positive feedback and appreciation from clients.

Appium for Mobile Automation (4 months)
- **Automated mobile** testing for e-commerce applications.
- Developed and executed automated test scripts using Appium.
- Engaged in client-facing activities, managing client feedback, and ensuring client satisfaction.

Marketing Domain (5 months)
- Worked on automation and admin-side manual testing using C-Sharp, **SpecFlow**, and **RestSharp**.
- Full access to account management for adding credit for testing.
- Involved in testing across dev, test, pre-prod, and prod environments with varying access levels.

Java + BDD + Selenium (3 months)
- Worked on an **e-commerce** website project.
- Utilized **Java, BDD, Selenium** for test automation.
- Implemented **RestAssured** for API testing.
- Engaged in **client-facing activities**, managing client feedback, and ensuring client satisfaction.

Freelance Support (Weekends)
- Provided freelance support for **TypeScript** and **Playwright** projects.
- Assisted with project development for 4 hours weekly.

Manual Testing Support
- Assisted the manual testing team whenever needed.
- Supported regression weeks with full automation support and manual cycle execution.

EDUCATION

Savitribai Phule Pune University Pune

*Bachelor of Computer Science **Percentage : 73.55*** *Aug 2017 – May 2020*

PROJECTS

Risk Compliance Framework Development
Designed and developed a comprehensive automation framework.
* Integrated API and UI testing into a single hybrid framework.
* Supported test case execution across all available environments (dev, test, pre-prod, prod).
* Validated email content using GraphQL APIs and tested content within Word, PDF, and Excel files..

E-commerce Website Automation
Implemented automated testing for an e-commerce platform using Selenium and BDD.
* Enhanced API testing capabilities with RestAssured.

Mobile Application Automation
Automated end-to-end testing for a mobile application using Appium.
* Streamlined testing processes and reduced manual testing efforts.
* Supports the college community by facilitating professional development opportunities for students, faculty, and staff.

Marketing Domain Automation
Developed automation scripts for the marketing domain using C-Sharp, SpecFlow, and RestSharp.
* Conducted admin-side manual testing with full access to account management.
* Engaged in testing across various environments (dev, test, pre-prod, prod) with different access levels.

CERTIFICATIONS | ACHIVEMENT

- **Software Testing Subject:Manual and Automation Completed with A grade**
- **C Programming Language Subject:C Programming Completed with A grade**
- **C++ Programming Language Subject:C++ Programming Completed with A grade**
